ENFORCEMENT OF CIVIL LIABILITIES

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the "Civil Procedure Code"). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are enforceable as a decree or judgment. Among others, the United Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction.
- The judgment has not been given on the merits of the case.
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable.
- The proceedings in which the judgment was obtained are opposed to natural justice.
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

INTERNAL RISK FACTORS

Business Related Risks

- 1. Our business is dependent on our processing facilities, which are subject to a variety of risks. Any slowdown or shutdown in our processing operations or under-utilization of our processing facilities could have an adverse effect on our business, results of operations and financial condition.***

We conduct our operations through processing facilities situated in Andhra Pradesh. Our business is dependent upon our ability to manage our processing facilities, which are subject to various operating risks, including those beyond our control, such as the breakdown and failure of equipment or industrial accidents and severe weather conditions and natural disasters. Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair malfunctioning machinery in a timely manner or at all, our operations may need to be suspended until we procure machinery to replace the same. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections and testing, or may shut down certain facilities for capacity expansion and equipment upgrades. Moreover, because both of our processing facilities are located in Andhra Pradesh, the risk of substantial disruption or shutdown of both facilities due to a single significant natural calamity or other catastrophic event is more pronounced. We may also face protests from local citizens at our existing facilities or while setting up new facilities, which may delay or halt our operations.

Although we have not experienced any significant disruptions at our processing facilities in the past, we cannot assure you that there will not be any disruptions in our operations in the future. Our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or the under-utilization of our processing facilities, which in turn may have an adverse effect on our business, results of operations and financial condition.

2. ***We are dependent on a continued and sustained availability of raw shrimp, which is the key raw material used in our processing operations. We have not entered into long-term agreements with all of our raw material suppliers, and any increase in the cost of, or a shortfall in the availability or quality of such raw materials could have an adverse effect on our business, revenues and results of operations.***

Raw shrimp is the key raw material for our processing operations, and the continued and sustained availability of quality raw material at competitive prices is essential to the growth of our business. Our cost of materials consumed constitutes the largest component of our cost structure. Our profitability may be adversely affected by changes in production costs as a result of any upward revision in raw material prices. The price and availability of our primary raw material depends on several factors beyond our control, including overall economic conditions, production levels, demand, competition, transportation costs and regulatory restrictions. Further, our supply chain is subject to disruptions and price volatility caused by various factors such as market fluctuations, quality and availability, demand, changes in government policies and regulatory sanctions. Any disease or epidemic affecting the health Shrimps may significantly affect our business operations. We also face a risk that one or more of our existing suppliers may discontinue their supplies to us, and any inability on our part to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect our operations. If, for any reason, our major raw material suppliers should curtail or discontinue the delivery of such raw materials to us in the quantities that we need, or on commercially acceptable terms, our processing schedules could be disrupted, and our business, revenues and results of operations could be adversely affected.

3. ***The improper handling, transportation, processing or storage of raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our products, could subject us to regulatory and legal action, damage our reputation and have an adverse effect on our business, results of operations, profitability and financial condition.***

Our products are intended for human consumption or are typically used as ingredients in products intended for human consumption. Thus, our raw materials and products are subject to a variety of risks such as contamination, disease and spoilage during their processing, transportation or storage. We face an inherent business risk of exposure to product liability and claims in the event that our products fail to meet the required quality standards or are alleged to cause harm to customers. Such risks may be controlled, but not eliminated, by adherence to good processing practices and finished product testing. Any defect in our products and claims by our customers or retail consumers against our products could adversely affect our sales. Further, our business is dependent on the trust that our customers have in the quality of our products. While we have implemented several quality control procedures and perform tests across various stages of our process chain, we cannot assure you that our quality control measures will not fail or that the quality tests performed by us will be accurate at all times. Further, seafood is required to be stored, handled and transported at specific temperatures and under certain food safety conditions. Any shortcoming in the production or storage of our products due to failure of quality assurance procedures, negligence, human error or otherwise, may damage our products and result in non-compliance with applicable regulatory standards. Any allegation, whether accurate or not, that our products contain contaminants could damage our reputation and adversely affect our sales. Further, we may be subject to the risk of legal proceedings and product liability claims being brought by various entities, including our customers, end-users and government agencies for various reasons including for hazardous or contaminated products. If we are a party to a product liability case, we may incur considerable expense on litigation. We cannot assure you that we will not experience product liability losses in the future. Any product liability claim or adverse regulatory action may adversely affect our reputation, as well as entail significant costs, which could adversely affect our reputation, business, results of operations and financial condition. Further, even if any product liability claim is unsuccessful, the negative publicity surrounding any assertion that our products caused injury, illness or death could adversely affect our reputation with existing and potential customers, as well as result in a loss of consumer confidence.

4. ***A significant portion of our procurement network is concentrated in Andhra Pradesh, and any adverse developments affecting the region could have an adverse effect on our business, results of operations and financial condition.***

We primarily source a majority of our raw material from aqua-farms across Andhra Pradesh, more specifically, its coastal belt. Our business is thus, significantly dependent on the general economic and market conditions in the state as well as the state and local government policies relation to the aquaculture industry. Accordingly, any significant social, political or economic disruption, or natural calamities or civil disruptions, or changes in governmental policies in Andhra Pradesh, may have an adverse impact on our procurement network. Moreover, we do not currently maintain any comprehensive insurance to protect us against the risk of any significant business interruptions. For instance, Cyclone Hudhud caused

extensive damage to property in and around the coastal regions of Andhra Pradesh in 2014, and necessitated a large-scale evacuation. Any similar or other event in the future may require us to incur significant expenditure in sourcing our raw materials from other regions and change the way in which we conduct business, which may have an adverse effect on our business, results of operations and financial condition.

5. ***There are certain outstanding litigations involving our Company, our Promoter, our Directors and our Group Entities and any adverse outcome in any of these proceedings may adversely affect our profitability and reputation and may have an adverse effect on our results of operations and financial condition.***

A Summary of material outstanding legal proceedings involving our Company and our Subsidiaries as on date of this Letter of Offer, including the approximate amount involved to the extent ascertainable, is set out below:

Sr. No.	Types of Proceedings	No. of Cases	Amount to the extent quantifiable (in Lakhs)
LITIGATIONS INVOLVING OUR COMPANY			
Litigation matters against our Company			
1)	Tax matters	03	204.42*
Litigation matters filed by our Company			
1)	Civil matters	-	Nil
Litigation involving our Promoter			
1)	Civil Matter	-	Nil
Litigation Involving our Subsidiaries			
	Nil	-	Nil

* Out of the above stated three case, one case pending with Income Tax dept. has been dropped by CIT Appeal as per their order dated August 25, 2023.

6. ***We are exposed to foreign currency exchange rate fluctuations, which may harm our results of operations and cause our results to fluctuate.***

Our financial information is presented in Indian Rupees, we generate part of our sales internationally through export and sales outside of India. These sales are denominated in foreign currencies, primarily in U.S. dollars. Moreover, we may from time to time, have unhedged foreign currency exposure. on account of our foreign currency denominated borrowings. The exchange rate between the Indian Rupee and the U.S. dollar has fluctuated in the past and our results of operations have been impacted by such fluctuations, and may be impacted by such fluctuations in the future as well. For these reasons, our financial condition and results of operations are influenced by fluctuations in the relative values of the relevant currencies, especially between the Indian Rupee and the U.S. Dollar. For example, during times of strengthening of the Indian Rupee, we expect that our overseas sales and revenues will generally be negatively impacted, as foreign currency received will be translated into fewer Indian Rupees. However, the converse positive effect on depreciation of the Indian Rupee may not be sustained or may not show an appreciable impact in our results of operations in any given financial period due to other operational variables impacting our business and results of operations during the same period. Further, due to the time gap between the accounting of sales and actual payments, the foreign exchange rate at which the sale is recorded in the books of accounts may vary with the foreign exchange rate at which the payment is made, thereby benefiting or affecting us negatively, depending on the appreciation or depreciation of Rupee. We may, therefore, be exposed to risks arising from exchange rate fluctuations, may not be able to pass on all losses on account of foreign currency fluctuations to our customers, and suffer losses on account of foreign currency fluctuations. There is no guarantee that we may be able to manage our foreign currency risk effectively or mitigate exchange exposures, at all times and our inability may harm our results of operations and cause our results to fluctuate and/or decline.

7. ***We require a significant amount of working capital for our operations, and any failure to maintain sufficient working capital may have an adverse impact on our business.***

Our operations require a significant amount of working capital. While we typically procure raw materials on the basis of the purchase orders received from our customers, we are required to pay our vendors before we receive payments from our customers. We require a significant amount of cash to fund our raw material procurement. If we fail to maintain sufficient working capital through our sales activities and timely collection of trade receivables

or other means, we may not have sufficient working capital for our operations, which may have a material adverse effect on our business, financial condition and results of operations.

8. *Any failure to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business, our business and results of operations may be adversely affected.*

We are required to obtain and maintain a number of statutory and regulatory permits and approvals. A majority of the licenses, permits and approvals are granted for a limited duration. As and when such approvals or licenses expire, we will need to make applications for their renewal or for fresh licenses, permits and approvals. We cannot assure you that any such renewals or fresh licenses, permits and approvals will be issued or granted to us in a timely manner, or at all. If we do not receive such renewals or are unable to obtain fresh licenses, permits and approvals in a timely manner, our business and operations may be adversely affected. Further, the licenses, permits and approvals required by us are subject to numerous terms and conditions. We cannot assure you that these licenses, permits and approvals will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any such terms or conditions, or pursuant to any regulatory action. If we fail to comply with the terms and conditions attached to our licenses, permits and approvals, we may incur increased costs, be subject to penalties, have such licenses, permits and approvals revoked or suffer a disruption in our operations, any of which could adversely affect our business.

9. *We are subject to strict quality requirements, regular inspections and audits, and any failure to comply with quality standards may lead to the delisting of our facilities, cancellation of existing and future orders and could negatively impact our reputation and our business and results of operations and prospects.*

Our products are marketed by our customers through various distribution channels to retail chains, stores, restaurants and food service distributors across North America, Europe and Asia. Accordingly, our customers and end-retailers maintain strict qualification and/or certification procedures. Our products go through various quality checks at various stages including random sampling checks and quality checks by internal and external agencies. Further, these products are subject to random sampling checks by regulatory authorities in the countries to which they are exported. Several key customers and end-retailers have audited our facilities and processes, and undertake periodic audits and inspections. Failure of our products to meet prescribed quality standards may result in rejection of our products and subject to the nature of rejection, even the delisting of our facilities on a temporary or permanent basis. This may result in our customers cancelling present or future purchases of our products.

While we have put in place quality control procedures, we cannot assure that our products will always be able to satisfy our prescribed quality standards. Our quality control procedures may fail to test for all possible conditions of use or identify all defects in the processing of our products. Any failure on our part to successfully maintain quality standards for our products may affect our customer relationships, which may adversely affect our business, results of operations and prospects.

10. *We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures could have a material adverse effect on our business growth and prospects, financial condition and results of operations.*

The frozen seafood industry is highly competitive. We compete with several domestic and international seafood processors, primarily in Asian countries. We also face competition from several players in the unorganized sector. We expect that competition will continue to intensify both through the entry of new players and consolidation of existing players. Our competitors may succeed in developing products that are more popular or cheaper than any that we may develop, which may render our products uncompetitive and adversely affect our business and financial results. Some of our competitors may have greater financial resources, better distribution network, technical and marketing resources and generate greater revenues, and therefore may be able to respond better to market changes than we can. Further, our customers and end-retailers also operate within a highly competitive industry, where they are constantly required to adapt to factors such as changing consumer preferences, consolidation and the entry of new regional and local players, and constantly exert downward pricing pressure. We may be adversely affected in case our customers are unable to effectively respond to any factors that adversely impact the competitive landscape of their industry. We believe that our ability to compete depends on a number of factors beyond our control, including the ability of our competitors to attract, train, motivate and retain skilled employees, the price at which our competitors offer comparable products and the extent of our competitor's responsiveness to customer needs. Our

inability to adequately address competitive pressures may have a material adverse effect on our business, prospects, financial condition and results of operations.

11. *Foreign exchange risk refers to the losses that an international financial transaction may incur due to currency fluctuations*

Foreign exchange risk refers to the losses that an international financial transaction may incur due to currency fluctuations. Being a pharmaceutical company exporter generally foreign risk arises when there is accounting gains and loss between the moment of the invoice and settlement, transaction risk between the firm commitment and settlement and budget risk from the moment pricing is set. In simpler terms, any changes in the exchange rates between currencies may affect our business financial performance.

12. *We depend on our management team and the loss of team members may adversely affect our business.*

There have been change in management in the recent past. We believe that we have a team of professionals to oversee the operations and growth of our business. We have a number of technically qualified people in each area of our activity. If one or more members of our management team are unable or unwilling to continue in their present positions because of various factors, such persons would be difficult to replace and our business would be adversely affected. We may lose members of our key management team to our clients or competitors.

13. *Our inability to accurately forecast demand or price for our products and manage our inventory may have an adverse effect on our business, results of operations and financial condition.*

Our business depends on our estimate of the demand for our products from customers and on the basis of purchase orders that are placed from time to time. The demand for the frozen seafood products is linked to a variety of factors, including the end-retailers' ability to identify and adapt to evolving consumer preferences. If we underestimate demand or have inadequate capacity due to which we are unable to meet the demand for our products, we may process fewer quantities of products than required, which could result in the loss of business. While we forecast the demand and price for our products and accordingly plan our product volumes, any error in our forecast could result in a reduction in our profit margins and surplus stock, which may result in additional storage cost and such surplus stock may not be sold in a timely manner, or at all. If we overestimate demand, we may incur costs to build capacity or purchase more raw materials and process more products than required. Our inability to accurately forecast demand for our products and manage our inventory may have an adverse effect on our business, results of operations and financial condition.

14. *Non-compliance with and changes in, safety, health and environmental laws and other applicable regulations, may adversely affect our business, results of operations and financial condition.*

We are subject to a broad range of safety, health, environmental, labour, workplace and related laws and regulations in India, which impose controls on the disposal and storage of raw materials, noise emissions, air and water discharges; on the storage, handling, discharge and disposal of substances, employee exposure to hazardous substances and other aspects of our operations. For example, laws in India limit the amount of hazardous and pollutant discharge that our processing facilities may release into the air and water. The discharge of hazardous substances into the air, soil or water beyond these limits may cause us to be liable to regulatory bodies and incur costs to remedy the damage caused by such discharges. Further, any accidents at our facilities may result in personal injury or loss of life of our employees, contract laborers or other people, substantial damage to or destruction of property and equipment resulting in the suspension of operations. Any of the foregoing could subject us to litigation, which may increase our expenses in the event we are found liable, and could adversely affect our reputation. Additionally, the government or the relevant regulatory bodies may require us to shut down our facilities, which in turn could lead to product shortages that delay or prevent us from fulfilling our obligations to customers. The adoption of stricter health and safety laws and regulations, stricter interpretations of existing laws, increased governmental enforcement of laws or other developments in the future may require that we make additional capital expenditures, incur additional expenses or take other actions in order to remain compliant and maintain our current operations. Complying with, and changes in, these laws and regulations or terms of approval may increase our compliance costs and adversely affect our business, prospects, results of operations and financial condition.

We are also subject to the laws and regulations governing relationships with employees in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and termination of employees, contract labour and

work permits. There is a risk that we may inadvertently fail to comply with such regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities, as well as the withholding or delay in receipt of regulatory approvals for our new products. We cannot assure you that we will not be involved in any potential litigation or other proceedings, or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which may be significant.

15. Any regulatory actions and penalties for any past or future non-compliance may adversely affect our business or reputation, or both.

We have to comply with numerous regulatory filings, maintenance of record etc under the Companies Act, 2013, Securities Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015, Securities Exchange Board of India (Substantial Acquisition of Shares and Takeover) Regulation, 2011 and any other laws and regulation as applicable. We may have failed to comply or maintain certain record as per the applicable law and as a result we have been imposed the penalty/fines by the SEBI for such non-compliance. Further in past, due to delays and non-filing of the requisite compliance the trading in our Company's scrip have been suspended on BSE which was later revoked by the BSE vide letter dated June 27, 2019 after completing all the necessary compliances. However, there can be no assurance that there may not be any delay in compliances in future which could affect the listing/trading of the equity shares of our Company at the stock exchange.

Issue Specific Risks

16. Investment in Rights Equity Shares is exposed to certain risks. From the Call Record Date for each Call prior to the final Call, the trading of the Rights Equity Shares would be suspended for an applicable period under the applicable law. Further, the Rights Equity Shares will not be traded with effect from the Call Record Date for the final call fixed for the determination of the Investors liable to pay Call Monies, as determined by our Board at its sole discretion, from time to time. The holders of the Rights Equity Shares will not be able to trade in these securities till they are credited to the holders' account as fully paid-up. Further, until the subsistence of Rights Equity Shares, we may not be able to undertake certain forms of equity capital raising.

The Issue Price is ₹ 31/- per Rights Equity Share. On Application, Investors will have to pay ₹ 7.75 (25.00% of the Issue Price) per Rights Equity Share. The balance amount will be payable by the Rights Equity Shareholders on subsequent Calls of ₹ 23.25/- per Rights Equity Share, after payment of the Application Money.

The Rights Equity Shares offered under this Issue will be listed under a separate ISIN. An active market for trading may not develop for the Rights Equity Shares. This may affect the liquidity of the Rights Equity Shares and restrict your ability to sell them.

If our Company does not receive the Call Money as per the timelines stipulated in the Call notice, unless extended by our Board, the defaulting Rights Equity Shareholders will be liable to pay interest as may be fixed by our Board unless waived or our Company may forfeit the Rights Equity Shares, in accordance with the Companies Act, 2013 and our Articles of Association. For details, see "Terms of the Issue" beginning on page 87. In case our Company declares any dividend, Rights Equity Shareholders are only entitled to dividend in proportion to the amount paid up, and the voting rights (exercisable on a poll) by investors shall also be proportional to such investor's share of the paid-up equity capital of our Company. Therefore, the rights of holders of the Rights Equity Shares will not be *pari passu* with the rights of the other shareholders of our Company in case of non-payment of Call Monies.

The ISIN representing partly paid-up Rights Equity Shares will be terminated after the Call Record Date for the final Call. On payment of the final Call in respect of the partly paid-up Rights Equity Shares, such partly paid-up Rights Equity Shares would be converted into fully paid-up Equity Shares and shall be listed and identified under the existing ISIN for our fully paid-up Equity Shares. Our Company would fix a Call Record Date for the purpose of determining the list of allottees to whom the notice for the Final Call would be sent. From the Call Record Date for each Call prior to the Final Call, the trading of the Rights Equity Shares would be suspended for an applicable period under the applicable law. Further, with effect from the Call Record Date, trading in the partly paid-up Rights Equity Shares for which final Call have been made, would be suspended prior to the Call Record Date, for such period as may be applicable under the rules and regulations. Furthermore, the holders of the partly paid-up Rights Equity Shares will not be able to trade in these shares until they are credited to the holders' account as fully paid-up Rights Equity Shares. Similarly, for an applicable period,

from the Call Record Date for each Call, the trading of the Rights Equity Shares would be suspended under the applicable law. Further, there is little history of trading of partly paid-up shares in India and therefore there could be less liquidity in this segment, which may cause the price of the Rights Equity Shares to fall and may limit ability of Investors to sell the Rights Equity Shares. There may also be a risk of the Rights Equity Shares not forming part of the index. Further, until the subsistence of Rights Equity Shares, we cannot undertake further rights issues, further public offers or bonus issues. In terms of Regulations 62 and 104 of the SEBI ICDR Regulations, an issuer making a rights issue or further public offer is required to ensure that all its existing partly paid-up equity shares have either been fully paid-up or have been forfeited. Additionally, a bonus issue will not be permitted under law till the subsistence of partly paid-up equity shares in terms of Regulation 293 of the SEBI ICDR Regulations.

17. SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020 and January 19, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020 and January 19, 2021 and April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “*Terms of the Issue*” on page 87 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

18. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

19. No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the trading price of the Equity Shares may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements.

20. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form (“Physical Shareholders”) may lapse in case they fail to furnish the details of their demat account to the Registrar*

In accordance with the circular SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020, the credit of Rights Entitlement and Allotment of Rights Equity Shares shall be made in dematerialized form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

21. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Securities to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

22. *Investors will be subject to market risks until the Equity Shares credited to the investors demat account are listed and permitted to trade.*

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor’s demat account, are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchanges, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor’s demat account or that trading in the Equity Shares will commence in a timely manner.

23. *There may not be an active or liquid market for our Equity Shares, which may cause the price of the Equity Shares to fall and may limit your ability to sell the Equity Shares.*

The price at which the Equity Shares will trade after this Issue will be determined by the market place and may be influenced by many factors, including:

- Our financial results and the financial results of the other companies in the similar lines of businesses;
- The history of, and the prospects for, our business and the sectors in which we compete;
- The valuation of publicly traded companies that are engaged in business activities similar to us; and
- Significant developments in India’s economic liberalization and deregulation policies.

In addition, the Indian equity share markets have from time to time experienced significant price and volume fluctuations that have affected the market prices for the securities of Indian companies. As a result, investors in the Equity Shares may experience a decrease in the value of the Equity Shares regardless of our operating performance or prospects.

24. *Overseas shareholders may not be able to participate in our Company's future rights offerings or certain other equity issues.*

If our Company offers or causes to be offered to holders of its Equity Shares rights to subscribe for additional Equity Shares or any right of any other nature, our Company will have discretion as to the procedure to be followed in making such rights available to holders of the Equity Shares or in disposing of such rights for the benefit of such holders and making the net proceeds available to such holders. For instance, our Company may not offer such rights to the holders of Equity Shares who have a registered address in the United States unless: (i) a registration statement is in effect, if a registration statement under the U.S. Securities Act is required in order for our Company to offer such rights to holders and sell the securities represented by such rights; or (ii) the offering and sale of such rights or the underlying securities to such holders are exempt from registration under the provisions of the U.S. Securities Act. Our Company has no obligation to prepare or file any registration statement. Accordingly, shareholders who have a registered address in the United States may be unable to participate in future rights offerings and may experience a dilution in their holdings as a result.

25. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.*

Our revenues are dependent on various factors such as future earnings, financial condition, cash flows, working capital requirements and capital expenditures. The combination of these factors may result in significant variations in our revenues and profits and thereby may impact our ability to pay dividends.

26. *There are restrictions on daily movements in the price of our Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

We are subject to a daily 'circuit breaker' imposed by the Stock Exchanges, which may not allow transactions beyond specified increases or decreases in the price of our Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of our Equity Shares.

This circuit breaker will limit the upward and downward movements in the price of our Equity Shares during the day. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

27. *Any future issuance of Equity Shares may dilute the investor's shareholding and sales of the Equity Shares by any of our significant shareholders may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares by the Company could dilute your shareholding. Any such future issuance of the Equity Shares or future sales of the Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares and impact our ability to raise capital through an offering of our securities. Any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. Additionally, the disposal, pledge or encumbrance of the Equity Shares by any of our significant shareholders, or the perception that such transactions may occur, may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that our significant shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

28. *We cannot guarantee that the Equity Shares issued under this Issue will be listed on the Stock Exchange in a timely manner, if at all.*

In accordance with Indian law and practice, after our Board or committee passes the resolution to allot the Equity Shares but prior to crediting such Equity Shares into the Depository Participant accounts of the investors, we are required to apply to the Stock Exchange for final approval for listing and trading of the Equity Shares. There could be a failure or delay in obtaining these approvals from the Stock Exchange, which in turn could delay the listing of the Equity Shares on the Stock Exchange. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market

risk for such period. Any failure or delay in obtaining these approvals would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, may not be indicative of the prices at which the Equity Shares will trade in the future.

29. *Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares and Equity Shares Rights Entitlements.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which our Equity Shares are sold. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

The Finance Act, 2019 has clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments came into effect from July 1, 2020.

Further, the Finance Act, 2022, which received the assent of the President of India on March 30, 2023, has, among other things, provided a number of amendments to the direct and indirect tax regime. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations could adversely affect our business. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

EXTERNAL RISK FACTORS

30. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude.

31. *We may, at any time in the future, make further issuances or sales of our Equity Shares, and this may significantly dilute your future shareholding and affect the trading price of our Equity Shares.*

Any future equity issuances by us, may lead to the dilution of Investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoter or other major shareholders may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences for us including difficulty in

raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception that such issuance or sales of shares may occur, may lead to dilution of your shareholding, significantly affect the trading price of our Equity Shares and our ability to raise capital through an issue of our securities. There can be no assurance that such future issuance by us will be at a price equal to or more than the Issue Price. Further, there can be no assurance that we will not issue further shares or that the major shareholders will not dispose of, pledge or otherwise encumber their shares.

32. *Rights of shareholders under Indian laws may be more limited than the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

33. *Terrorist attacks, civil unrests and other acts of violence in India and around in the world could adversely affect the financial markets, result in a loss of consumer confidence and adversely affect our business, financial condition and cash flows.*

Terrorist attacks, civil unrests and other acts of violence or war in India and around in the world may adversely affect worldwide financial markets and result in a loss of client's confidence and ultimately adversely affect our business, financial condition and cash flows. India has, from time to time, experienced instances of civil unrest and political tensions and hostilities among neighboring countries. Political tensions could create a perception that an investment in Indian companies involves higher degrees of risk and on our business and price of our Equity Shares.

34. *Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.*

Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial performance and our ability to obtain financing to fund our growth on favorable terms or at all.

35. *Natural disasters and health epidemics could have a negative impact on the Indian economy, damage our facilities and also destroy the outlook of our Company.*

Natural disasters such as floods, earthquakes, famines and pandemics have in the past had a negative impact on the Indian economy, with the most recent example being the global outbreak of COVID-19. If any such event were to occur, our business could be affected due to the event itself or due to the inability to effectively manage the effects of the particular event. Potential effects include the damage to infrastructure, damage to our intangible assets and the loss of business continuity. In the event that our facilities are affected by any of these factors, our operations may be significantly interrupted, which may materially and adversely affect our business, cash flows, financial condition and results of operations.

36. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of

shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

37. *Significant differences exist between IndAS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with Ind AS contained in this Letter of Offer.*

Our audited financial statements contained in this Letter of Offer have been prepared and presented in accordance with Ind AS. Ind AS differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Ind AS and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Ind AS contained in this Letter of Offer. Accordingly, the degree to which the financial information included in this Letter of Offer will provide meaningful information and is dependent on your familiarity with Ind AS and the Companies Act. Any reliance by persons not familiar with Ind AS on the financial disclosures presented in this Letter of Offer should accordingly be limited.

38. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure.

The Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

- The General Anti Avoidance Rules ("GAAR") have been made effective from April 01, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

The above parameters have been taken as per industry norms.

Current Assets	
Inventories	The increase in inventory days from 72.9 in FY 2023 to 91.2 in FY 2024 is attributed to heightened demand and supply chain volatility, prompting the need for strategic adjustments. Conversely, the decrease to 68.5 days in FY 2025 indicates improved efficiency and adept inventory management through the adoption of agile supply chain practices and effective demand forecasting.
Trade Receivables	The increase in trade receivable days from 60.6 in FY 2023 to 67.9 in FY 2024 suggests extra credit time given to the customers in order to build a better relationship with them. However, the subsequent decrease to 66.7 days in FY 2025 indicates the stable terms of the receivable days.
Current Liabilities	
Trade Payables	Trade payable days decreased from 23.7 in FY 2023 to 21.3 in FY 2024, potentially reflecting early payment to the suppliers for better negotiating terms. The subsequent decrease to 19.7 days in FY 2025 suggests a return to efficient payables management, possibly through improved negotiation strategies or enhanced working capital management.

SECTION VI – ABOUT THE COMPANY

INDUSTRY OVERVIEW

Global Growth Outlook

Global growth, estimated at 3.1 percent in 2023, is projected to remain at 3.1 percent in 2024 before rising modestly to 3.2 percent in 2025 (Table 1). Compared with that in the October 2023 WEO, the forecast for 2024 is about 0.2 percentage point higher, reflecting upgrades for China, the United States, and large emerging market and developing economies. Nevertheless, the projection for global growth in 2024 and 2025 is below the historical (2000–19) annual average of 3.8 percent, reflecting restrictive monetary policies and withdrawal of fiscal support, as well as low underlying productivity growth. Advanced economies are expected to see growth decline slightly in 2024 before rising in 2025, with a recovery in the euro area from low growth in 2023 and a moderation of growth in the United States. Emerging market and developing economies are expected to experience stable growth through 2024 and 2025, with regional differences.

World trade growth is projected at 3.3 percent in 2024 and 3.6 percent in 2025, below its historical average growth rate of 4.9 percent. Rising trade distortions and geo-economic fragmentation are expected to continue to weigh on the level of global trade. Countries imposed about 3,200 new restrictions on trade in 2022 and about 3,000 in 2023, up from about 1,100 in 2019, according to Global Trade Alert data.

Growth Outlook

Global growth is projected at 3.1 percent in 2024 and 3.2 percent in 2025, with the 2024 forecast 0.2 percentage point higher than that in the October 2023 World Economic Outlook (WEO) on account of greater-than-expected resilience in the United States and several large emerging market and developing economies, as well as fiscal support in China. The forecast for 2024–25 is, however, below the historical (2000–19) average of 3.8 percent, with elevated central bank policy rates to fight inflation, a withdrawal of fiscal support amid high debt weighing on economic activity, and low underlying productivity growth. Inflation is falling faster than expected in most regions, in the midst of unwinding supply-side issues and restrictive monetary policy. Global headline inflation is expected to fall to 5.8 percent in 2024 and to 4.4 percent in 2025, with the 2025 forecast revised down.

With disinflation and steady growth, the likelihood of a hard landing has receded, and risks to global growth are broadly balanced. On the upside, faster disinflation could lead to further easing of financial conditions. Looser fiscal policy than necessary and, than assumed in the projections could imply temporarily higher growth, but at the risk of a more costly adjustment later on. Stronger structural reform momentum could bolster productivity with positive cross-border spillovers. On the downside, new commodity price spikes from geopolitical shocks—including continued attacks in the Red Sea—and supply disruptions or more persistent underlying inflation could prolong tight monetary conditions. Deepening property sector woes in China or, elsewhere, a disruptive turn to tax hikes and spending cuts could also cause growth disappointments.

Policymakers' near-term challenge is to successfully manage the final descent of inflation to target, calibrating monetary policy in response to underlying inflation dynamics and—where wage and price pressures are clearly dissipating—adjusting to a less restrictive stance. At the same time, in many cases, with inflation declining and economies better able to absorb effects of fiscal tightening, a renewed focus on fiscal consolidation to rebuild budgetary capacity to deal with future shocks, raise revenue for new spending priorities, and curb the rise of public debt is needed. Targeted and carefully sequenced structural reforms would reinforce productivity growth and debt sustainability and accelerate convergence toward higher income levels. More efficient multilateral coordination is needed for, among other things, debt resolution, to avoid debt distress and create space for necessary investments, as well as to mitigate the effects of climate change.

Road Ahead

The Indian fisheries and aquaculture sectors have become fastest growing agriculture allied sectors in the country. The share of inland fisheries and aquaculture in overall fish production has gradually increased over the last several years. India has also become top producer and exporter of shrimp as a results of using contemporary technologies. New areas, such as salty and brackish waterways, reservoirs, and flood plains, are being used for profitable aquacultures. Wastelands are being transformed into wealthy lands.

The government has implemented several supportive measures to increase the potential of these sectors. It is developing fishing infrastructure, landing areas, river ranching, and fish seeding on major rivers, including the Ganga, the Brahmaputra, and others. In the Himalayan and North Eastern states, cold water fisheries, trout brooding facilities and hatcheries are being developed.

The government aims to increase fish production from 140 lakh tonnes to 220 lakh tonnes by FY 2025, which can be achieved by marine fisheries, inland fisheries, and aquaculture. The use of deep-sea vessels, modern and effective fishing methods, a network of seamless cold chains, cold storage facilities, ice plants, fish processing units, fish product units and many more have been envisioned. Given the positive developments, it is reasonable to believe that India's fisheries and aquaculture sector have a bright future.

The Company got converted into a Public Limited Company on April 20, 1992 and the Name was changed to 'Sharat Sea Foods Limited'. Further, the present name of the Company was changed on June 13, 1996, and fresh certificate of incorporation was issued by the Registrar of Companies, Andhra Pradesh. The Corporate Identity Number of our Company is L05005AP1990PLC011276.

Established in 1990, Sharat Industries Limited ("SIL") is the oldest integrated aquaculture company in India. In its initial years, the company successfully cultured and processed Black Tiger shrimp before eventually producing Scampi shrimp. We pride ourselves in being the pioneer of Vannamei (white shrimp) culture in India. This was possible through the vision and sustained efforts of its dynamic Managing Director, Mr. Prasad Reddy Sabbella.

Through the efforts of its efficient management and able team, SIL has sustained itself for almost three decades in the ever so fluctuating field of aquaculture in India. With forward thinking and timely action, the company has managed to sail through several turbulent phases in the aquaculture industry. At a time when the aquaculture industry was at an all-time low, owing to the failure of black tiger and scampi culture, SIL gave a new lease of life to the industry by introducing Vannamei breeding and culture in the country. Through this initiative, currently, Vannamei is now a household name in the aquaculture dependent states of India.

Having exported its products to clients all over the world for more than 15 years, SIL is well equipped to cater to the needs of different market segments. The Company's adherence to stringent quality standards has ensured a demand for its wide range of products.

The Company has a blend of youthful and experienced work force that constantly tries to innovate and deliver results by adopting the best practices in the field.

The Company consists of four divisions: (1) Shrimp Hatchery; (2) Farm; (3) Feed Mill; and (4) Processing Plant.

Shrimp Hatchery

The shrimp hatchery at SIL is one of the well-established hatcheries in the country with a production capacity of more than 400 million seedlings. The hatchery currently produces Vannamei seedlings, and is the first hatchery in the country to have introduced and nativised the species, which has its origins in the pacific region.

SIL has a long-term association with SIS, Florida and uses only Specific Pathogen Free (SPF) broodstock for the production of its seedlings. Stringent quality norms ensure the production of robust and disease resistant seedlings.

Farm

Located on the coast of the Bay of Bengal, the Farm consists of a water spread area of about 500 acres. Its proximity to the sea enables the use of sea water for farming operations. The well-planned interlocking canals throughout the farm facilitate an uninterrupted supply of sea water for the healthy growth of shrimp.

With a potential to produce over 2,000 tonnes of shrimp per annum, SIL has one of the largest shrimp farms in the country. A combination of modern technology and environment friendly farming techniques helps SIL produce good quality shrimp, free from antibiotics.

In addition to ensuring good quality end products, SIL places a strong emphasis on sustainable and environment- friendly shrimp farming operations. In recent times, the Company has upgraded its facilities by implementing automation in several sectors of shrimp farming like the feeding process and real-time monitoring of water quality. The Company has also invested extensively in liner ponds and a hi-tech nursery section to further boost productivity and quality.

Feed Mill

To ensure that the shrimp produced in its farm are given the best quality feed, SIL began producing shrimp feed in its very own shrimp manufacturing facility. Originally built to cater exclusively to SIL's farm, the Feed Mill ramped up production in recent years and now supplies feed to several farmers in the state.

With a production capacity of more than 20,000 tonnes, SIL is one of the largest shrimp feed manufacturers in the state. Owing to its high quality and nutritional value, SIL's shrimp feed, VANNASTAR, has come to be widely accepted by shrimp farmers in the state.

Processing Plant

Established well over a decade ago, SIL's Processing Plant consists of state-of-the-art infrastructure and ultra- modern processing equipment. The plant is built in conformity with international standards. The plant has widely accepted accreditations such as EIA, EU and FDA approvals.

With a processing capacity of more than 7,500 tonnes of frozen shrimp per annum, SIL is one of the largest processors and exporters of shrimp in the country. The plant's top laboratory facilities and rigorous testing procedures ensure that all its processed products are antibiotic-free and of superior quality.

Processing Plant Facilities:

- 2 Individual Quick Freezers (combined capacity of 1.5 tonnes per hour)

INDEPENDENT AUDITORS' REPORT

To The Members of
SHARAT INDUSTRIES LIMITED
Report on the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of Sharat Industries Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2024, the Statement of Profit and Loss (including other comprehensive income) for the year then ended, the Cash Flows and the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, the profit for the year ended on that date total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis of Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the Ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the

context of our audit of the financial statements as a whole, and in forming our opinion thereon and we have determined that there are no key audit matters to communicate in our report.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act 2013, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position and financial performance, of the Company in accordance with the Accounting Principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial

A.R. KRISHNAN & ASSOCIATES

CHARTERED ACCOUNTANTS

statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosure are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We also communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Independent Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of subsection (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

**“ANNEXURE B” TO THE INDEPENDENT AUDITOR’S REPORT OF
SHARAT INDUSTRIES LIMITED**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of SHARAT INDUSTRIES LIMITED (“the Company”) as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our

audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has maintained, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were

A.R. KRISHNAN & ASSOCIATES
CHARTERED ACCOUNTANTS

operating effectively as of March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements for the year ended March 31, 2024

Corporate Information

Sharat Industries Limited (“the Company”) is a listed public Company incorporated in the year 1990 in India under the Companies Act, 1956. The Company is in the business of Shrimp Aquaculture and manufacturer and sale of shrimp feeds.

1 Basis of Preparation of Financial Statements Statement of Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (‘Act’) read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

Basis of preparation and measurement

The financial statements have been prepared on the historical cost basis, except for certain financial assets and liabilities which are measured at fair values at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an Orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an Orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2 Significant Accounting Policies

2.1 Property, Plant and Equipment (PPE)

On adoption of Ind AS, the Company retained the carrying value for all of its property, plant and equipment as recognized in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and used that as its deemed cost as permitted by Ind AS 101 'First-time Adoption of Indian Accounting Standards'.

Property, plant and equipment are initially recognized at cost. The initial cost of property, plant and equipment comprises its purchase price, including non-refundable duties and taxes net of any trade discounts and rebates. The cost of property, plant and equipment includes interest on borrowings (borrowing cost) directly attributable to acquisition, construction or production of qualifying assets subsequent to initial recognition. Property, plant and equipment are stated at cost less accumulated depreciation (other than freehold land, which are stated at cost) and Impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value Depreciation on tangible assets is calculated on a straight-line basis as per the useful life prescribed and in the manner laid down under Schedule II to the Companies Act, 2013. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual values, useful life and depreciation method are reviewed at each financial year-end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sales proceeds and the carrying amount of the asset and is recognized in profit or loss. Fully depreciated assets still in use are retained in financial statements.

2.1. Intangible assets

Intangible assets that are acquired are recognized at cost initially and carried at cost less accumulated amortization and accumulated impairment loss, if any. All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses on derecognition are determined by comparing proceeds with carrying amount. These are included in profit or loss.

(i) Computer software

Computer software are stated at cost, less accumulated amortization and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

(ii) Amortization methods and periods

Intangible assets with finite useful live are amortized over their respective individual estimated useful lives on a straight-line basis.

2.3 Capital work-in-progress and intangible assets under development

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost.

2.4 Non-derivative Financial Instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial liabilities

Financial liabilities are measured at amortized cost using the effective interest method.

Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments recognized by the Company are measured at the proceeds received net off direct issue cost.

Offsetting of financial instruments

Financial assets and financial liabilities are off set and the net amount is reported in financial statements if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.5 Impairment

Financial assets (other than at fair value)

Financial assets (other than at fair value) The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

PPE and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e., higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the Statement of Profit and Loss.

2.6 Inventories

Inventories are valued at lower of cost (on weighted average basis) and net realizable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to their present location and condition, including all taxes and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. Biological assets of the Company comprise of live stocks of shrimps' breeders and different phases of shrimp that are classified as current biological assets.

The Company recognizes biological assets when, and only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company and the fair value or cost of the assets can be measured reliably. Expenditure incurred on biological assets are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

2.7 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Sale of goods

Revenue from sale of shrimps is recognized when all the significant risks and rewards of ownership have been passed to the buyer- normally when the shipment is loaded which is in accordance with industry practice and entitlement of export subsidies are based on shipment of goods. Shipments that have been dispatched but have not been delivered at the end of the financial reporting period have been recognized as “Revenue on Shipments in Transit”.

Export benefits are accounted on recognition of export sales.

Revenue from the sale of Feeds is recognized when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

Income recognition for services takes place as and when the services are performed.

Interest Income

Interest income from financial assets is recognized when it is probable that economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to that asset's net carrying amount on initial recognition.

Insurance claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

2.8 Research and Development expenses

Research expenditure is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. Tangible assets used in research and development are capitalized.

2.9 Leases

Leases are classified as finance leases whenever the terms of lease transfer substantially all the risks and rewards of ownership to the lessee. Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

(i) Operating Lease:

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except where another systematic basis is more representative of the time pattern in which economic benefits from leased assets are consumed. The aggregate benefit of incentives (excluding inflationary increases where rentals are structured solely to increase in line with the expected general inflation to compensate for the lessor's inflationary cost increases, such increases are recognized in the year in which the benefits accrue) provided by the lessor is recognized as a reduction of rental expense over the lease term on a straight-line basis.

(ii) Finance Lease:

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability.

Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

2.10 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Company is committed to a sale plan involving disposal of an investment, the investment that will be disposed of is classified as held for sale when the criteria described above are met.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.11 Employee benefit expenses

Employee benefits consist of contribution to provident fund, superannuation fund, gratuity fund and compensated absences.

(i) Post-employment benefit plans

Defined Contribution plans

Payments to defined contribution retirement benefit scheme for eligible employees in the form of superannuation fund are charged as an expense as they fall due. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made.

The Company also makes contribution towards provident fund, in substance a defined contribution retirement benefit plan for qualifying employees. The provident fund is deposited with the Provident Fund Commissioner which is recognized by the Income Tax authorities.

Defined benefit plans

The Company operates various defined benefit plan such as gratuity fund.

The liability or asset recognized in the balance sheet in respect of its defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the said obligation is determined by discounting the estimated future cash outflows, using market yields of government bonds that have tenure approximating the tenures of the related liability.

The interest income / (expense) are calculated by applying the discount rate to the net defined benefit liability or asset. The net interest income / (expense) on the net defined benefit liability or as set is recognized in the Statement of Profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the Statement of Changes in Equity and in the Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

(ii) Short term employee benefit

Compensated absences which accrue to employees and which can be carried to future periods but are expected to be encashed or availed in twelve months immediately following the year end are reported as expenses during the year in which the employees perform the services that the benefit covers and the liabilities are reported at the undiscounted amount of the benefits after deducting amounts already paid. Where there are restrictions on avilment of encashment of such accrued benefit or where the avilment or encashment is otherwise not expected to wholly occur in the next twelve months, the liability on account of the benefit is actuarially determined using the projected unit credit method.

2.12 Foreign currency translation

The functional currency of the Company is Indian rupee

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognized in the Statement of Profit and Loss.

2.13 Borrowing cost

Borrowing costs are interest and ancillary costs incurred in connection with the arrangement of borrowings. General and specific borrowing costs attributable to acquisition and construction of any qualifying asset (one that takes a substantial period of time to get ready for its designated use or sale) are capitalized until such time as the assets are substantially ready for their intended use or sale, and included as part of the cost of that asset. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All the other borrowing costs are recognized in the Statement of Profit and Loss within Finance costs of the period in which they are incurred.

2.14 Income tax

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year.

Current and deferred taxes are recognized in Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Current tax

Current tax is measured at the amount of tax expected to be payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax

Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred tax assets are recognized only to the extent that it is probable that either future taxable profits or reversal of deferred tax liabilities will be available, against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of a deferred tax asset shall be reviewed at the end of each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.

Deferred tax assets and liabilities are off set when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

2.15 Accounting of provisions, contingent liabilities and contingent assets

Provisions are recognized, when there is a present legal or constructive obligation as a result of past events, where it is probable that there will be outflow of resources to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. Where the effect is material, the provision is discounted to net present value using an appropriate current market-based pre-tax discount rate and the unwinding of the discount is included in finance costs.

Contingent liabilities are recognized only when there is a possible obligation arising from past events, due to occurrence or non-occurrence of one or more uncertain future events, not wholly within the control of the Company, or where any present obligation cannot be measured in terms of future outflow of resources, or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

Contingent assets are not disclosed in the financial statements unless an inflow of economic benefits is probable.

2.16 Earnings per share (EPS)

Basic EPS is computed by dividing the profit or loss attributable to the equity shareholders of the Company by the weighted average number of Ordinary shares outstanding during the year. Diluted EPS is computed by adjusting the profit or loss attributable to the ordinary equity shareholders and the weighted average number of ordinary equity shares, for the effects of all dilutive potential Ordinary shares.

27 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the financial statements:

Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Impairment of non- financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

Inventories

Management estimates the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by future technology or other market-driven changes that may reduce future selling prices.

Defined Benefit Obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as attrition rate, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses (as analyzed in Note 28).

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain assets.

Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non- financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current or noncurrent classification of assets and liabilities.

The management believes that the claims made are untenable and is contesting them. As of the reporting date, the management is unable to determine the ultimate outcome of above matters. However, in the event the revenue authorities succeed with enforcement of their assessments, the Company may be required to pay some or all of the asserted claims and the consequential

interest and penalties, which would reduce net income and could have a material adverse effect on net income in the respective reported period.

32 Financial risk management objectives and policies

The Company's principal financial liabilities comprise of loans and borrowings, trade and other payables, and other current liabilities. The main purpose of these financial liabilities is to raise finance for the Company's operations. The Company has loans and receivables, trade and other receivables, and cash and short-term deposits that arise directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk.

The Company's senior management oversees the management of these risks. The Company's senior management advises on financial risks and the appropriate financial risk governance framework.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized below:

Market risk

Market risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, currency risk and other price risk, such as equity risk. Financial instruments affected by market risk include loans and borrowings, deposits, available-for-sale investments.

The sensitivity analyses in the following sections relate to the position as at March 31, 2024 and March 31, 2023

The following assumptions have been made in calculating the sensitivity analyses:

The sensitivity of the statement of comprehensive income is the effect of the assumed changes in interest rates on the net interest income for one year, based on the average rate of borrowings held during the year ended March 31, 2024, all other variables being held constant. These changes are reasonably possible based on observation of current market conditions.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the long-term debt obligations with average interest rates.

The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant. If interest rates increase or decrease by 100 basis points with all other variables being constant, the Company's profit after tax for the year ended March 31, 2024 would decrease or increase by Rs. Nil. (March 31, 2023 : Rs. Nil).

Foreign currency risk

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rate.

The Company's exposure to foreign currency arises where a Company holds monetary assets and liabilities denominated in a currency different to the functional currency of that entity:

Currency	As at March 31, 2024		Currency	As at March 31, 2023	
	Financial assets	Financial liabilities		Financial assets	Financial liabilities
USD	14,28,088	7,22,413	USD	18,45,180	9,65,245

Set out below is the impact of a 10% change in the US dollar on profit arising as a result of the revaluation of the Company's foreign currency financial instruments:

Currency	As at March 31, 2024		Currency	As at March 31, 2023	
	Closing rate	Effect of 10% strengthening of USD on net earnings		Closing rate	Effect of 10% strengthening of USD on net earnings
USD	83.41	70,567.50	USD	82.17	87,993.50

The impact on total equity is the same as the impact on net earnings as disclosed above.

Credit risk

Credit risk is the risk that a counter party fails to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example trade receivables, deposits, loans etc. the Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognized at March 31, as summarized below:

(Rs. In Lakhs)

Classes of Financial Assets	As at March 31, 2024	As at March 31, 2023
Investments	-	-
Trade Receivable	6,082.16	6,037.48
Cash and bank balances	129.29	853.12
Bank Balances other than above bank balances	375.50	346.92
Other Financial assets		
Total	6,586.95	7,237.52

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by the Company, and incorporate this information into its credit risk controls. The Company's policy is to transact only with counterparties who are highly creditworthy which are assessed based on internal due diligence parameters.

In respect of trade receivables, the Company is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various geographical areas. Based on historical information about customer default rates management consider the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents, fixed deposits and mutual funds are considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

Other financial assets mainly comprise of tender deposits and security deposits which are given to customers or other governmental agencies in relation to contracts executed and are assessed by the Company for credit risk on a continuous basis.

OVERVIEW OF OUR BUSINESS

Established in 1990, Sharat Industries Limited ("SIL") is the oldest integrated aquaculture company in India. In its initial years, the Company successfully cultured and processed Black Tiger shrimp before eventually producing Scampi shrimp. Sharat Industries Limited prides itself in being the pioneer of Vannamei (white shrimp) culture in India. This was possible through the vision and sustained efforts of its dynamic Managing Director, Mr. Prasad Reddy Sabbella.

Through the efforts of its efficient management and able team, SIL has sustained itself for almost three decades in the ever so fluctuating field of aquaculture in India. With forward thinking and timely action, the Company has managed to sail through several turbulent phases in the aquaculture industry. At a time when the aquaculture industry was at an all-time low, owing to the failure of black tiger and scampi culture, SIL gave a new lease of life to the industry by introducing Vannamei breeding and culture in the Country. Thanks to this initiative, today, Vannamei is now a household name in the aquaculture dependent states of India.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the “Department of Industrial Policy and Promotion”) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 05, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectorial limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e. any investment which would result in the investor holding 10.00% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. Our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular No. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.
